

RESPONSIBLE PURCHASING POLICY

March 2023

Genas, March 13th, 2023

The CLAYENS group is committed to controlling the environmental, social and economic impact by the application of good governance practices in the activities of all its purchases.

The materiality analysis has led us to define the strategic plan for the years 2022-2023 and 2024, based on the following:

1- Developing the economic performance of the group and its subsidiaries by creating value and ensuring the availability of products, while maintaining productivity initiatives.

2- Controlling the supply chain by selecting and monitoring our suppliers in accordance with an ethical and responsible Purchase approach.

3- Optimising and supporting our strategic supplier panel to achieve CSR, quality and logistics objectives by 2024:

- 90% of suppliers committed to the Sustainable Development Charter and EGQA (General Purchasing Quality Requirements).
- 60% of suppliers certified or under process for ISO14001 certification.
- 50% reduction of PPM and achieving a 95% service rate on the panel of strategic suppliers.

4- Raising the awareness of employees and suppliers to sustainable development and the company's code of conduct in terms of responsible purchasing.

- *Training 100% of buyers in Responsible Purchasing and anti-corruption issues.*
- *Evaluating 80% of strategic suppliers on the CSR awareness module CLAYENS*

The above objectives are to be achieved by 2024.

We implement the means to be exemplary in terms of loyalty regarding the integrity , diversity and fair treatment practices of our suppliers, in particular with clear and factual selection criteria:

- *We support the value of promoting visible and invisible diversity through women-owned businesses. CLAYENS also recognizes and supports minority-owned businesses*
- *We implement programs that value the inclusion of minorities to enhance their growth and prosperity.*
- *We promote access to our tenders as much as possible for local service providers of all sizes, including companies in the protected and professional integration sector.*
- *We select our strategic suppliers by integrating CSR criteria.*
- *We take into account CSR aspects in our contract award matrix.*
- *We monitor suppliers' commitment to our sustainable development charter.*
- *We ensure the implementation of CSR requirements by suppliers through preliminary assessments and audit activities.*
- *We promote as much as possible the development of technologies that respect the environment by our suppliers through their control of pollutants, GHG emissions and recycling.*
- *We promote suppliers aiming to control their carbon footprint as well as their logistics strategies limiting environmental impacts.*

Diversity, Equity and Inclusion fuel the innovation, inspiration and ambition that help us create and lead the business forward.

We are committed to regularly reviewing our purchasing policy and associated performance. The policy will be reviewed at least once a year.

We shall communicate and promote our Responsible Purchasing policy internally and externally :

- When integrating or updating a supplier in our panel via our general Purchasing quality requirements and sustainable development charter.
- When selecting a supplier for a contract through our specifications.
- We invite our suppliers to apply these same requirements to their partners and subcontractors.

The Purchasing Department is responsible for defining and evaluating the overall effectiveness of our purchasing management system.

The General Management is committed to providing the necessary means to achieve the objectives set.

The operational application of the Group Purchasing policy is the responsibility of the Purchasing and Quality Department.
